### **All lanes of Ft. Caroline Road's Ginhouse Creek Bridge set to re-open**

**Jacksonville** – Traffic is scheduled to return to two lanes in each direction over the Ginhouse Creek Bridge, weather permitting, on Saturday. Work to repair the western approaches to the bridge, located on Ft. Caroline Road, just west of St. Johns Bluff Road, began in June with traffic lanes being reduced to one lane in each direction over the bridge, in approximate 45-day intervals, to allow for the bridge rehabilitation.

The work is part of the overall \$8.7 million Wonderwood Connector drainage project that started in March, which includes upgrades of drainage structures and pipes beneath the Wonderwood Connector. The project, spanning from I-295 east to the Intracoastal Waterway, includes Merrill Road, Ft. Caroline Road, McCormick Road, Mt. Pleasant Road and Wonderwood Drive. FDOT hired J.B. Coxwell Contracting Company of Jacksonville to complete the project by the spring of 2016.

Intermittent daytime lane closures are still in effect throughout the duration of the project along the Wonderwood Connector route.
